Columbus. Ohio. Apr 20" 1896.

U.S. Mint

Philadelphia Pa.

I have quite a quantity of jewelers sweeps I would like to turn into cash to the best advantage, and perhaps you would refine same for me. I am a jeweler and for the past three years I have been saving the waste &c until I now have about a half barrel in a con--densed form. I saved the settlings of wash water, the dirt around the polishing lathe, all the rubbings and filings, and sweeps from the bench. this as you are most likely aware of, is the best of all sweeps. there is no unnessesary dirt in it. altho there is some lime in it. I had to put lime in the water to settle the gold. It is now pretty dry, and I would like to have the money out of it. I suppose it will average about two hundred dollars. Please let me know soon if you can do anything with it, and if so send me
